

Profile Summary

Expert in Technical Due Diligence (TDD) and M&A integrations for high-growth ventures. Proven track record of launching 70+ products and leading cross-functional teams in scaling tech ecosystems. Fluent in French (Written & Verbal) with deep expertise in identifying technical risks, "Deal Blockers," and operational gaps for investors and PE firms.

Professional Experience (10+ Years)

Work Experience	
Chief Technology Officer CodeAir Aug 2023-Present	Technical Strategy: Directing the long-term technical vision and roadmap, ensuring all software architecture aligns with global business objectives. Architecture Oversight: Spearheading the design of scalable, cost-effective cloud-based applications and API ecosystems for high-growth startups. Innovation & Delivery: Overseeing the successful end-to-end delivery of complex platforms, including Finwell Fintech and PixelGo ERP systems.
Project Manager & Head of IT CodeAir Apr 2019-Aug 2023	Team Leadership: Mentored and managed cross-functional teams, implementing Agile and Scrum methodologies to increase sprint velocity and deployment quality. Stakeholder Management: Acted as the primary technical consultant for clients, translating complex business requirements into actionable technical specifications. Product Lifecycle: Successfully navigated the full SDLC for over 20+ major applications, including Vakil Search and specialized retail software like 1Quotation.
Full Stack Developer CodeAir July 2015-Apr 2019	Software Development: Engineered robust web and mobile applications using PHP, Laravel, and JavaScript frameworks to meet diverse client needs. Performance Optimization: Developed and deployed 70+ high-performance WordPress sites and custom web apps with a focus on SEO and smooth user experiences. API Integration: Designed and implemented secure third-party API integrations for payment gateways and automated business filling systems.

M&A & Technical Due Diligence

- Technical Audit & Risk Assessment (8+ Years):** Conducted deep-dive technical audits of 70+ software products, identifying critical "Deal Blockers" such as unscalable architecture, security vulnerabilities, and high technical debt.
- Strategic Due Diligence Reporting:** Authored comprehensive reports for stakeholders, categorizing findings into Material vs. Non-Material risks to inform investment decisions and valuation.

- **Architecture Scalability Validation:** Evaluated target companies' cloud infrastructure (AWS/Azure/GCP) to ensure capacity for 10x growth post-acquisition, preventing business interruption risks.
- **Post-Acquisition Integration:** Led the technical merger of disparate tech stacks and engineering teams, streamlining DevOps pipelines and unifying security protocols (GDPR/ISO 27001).

Infrastructure & DevOps

Cloud Infrastructure (AWS/GCP), API Ecosystems, CI/CD Pipelines, System Scalability.

Tech Stacks & Frameworks

Modern Architectures: Node.js, Laravel, PHP, React.js, Next.js, Flutter, Kotlin, Python & AI
Data Systems: Firebase, SQL, PostgreSQL, MongoDB.

Product & Strategic Leadership

Agile/Scrum, Venture Architecture, Resource Optimization, Stakeholder Management, SEO/SMO Growth Strategy.

Certification

Associate Android Developer

Google Apr-2018

IBM Certified Solution Developer

IBM Oct-2016

Azure Security Engineer Associate

Microsoft Apr-2020

Google Cloud Certified Professional Cloud Architect

Google Jul-2019

Education

Bachelor of Computer Application

Durg University 2015-2018

Highlighted Projects

Finwell – Fintech & Investment Platform

Role: Strategic Lead & Architect

Impact: Spearheaded the development of a secure, scalable financial ecosystem. Implemented robust API integrations for real-time data processing and high-level encryption for user data protection.

PixelGo – Enterprise ERP Suite (School, HMS, POS)

Role: Product Architect

Impact: Designed a multi-tenant architecture supporting various industries. Automated complex institutional workflows, reducing manual processing time for clients by over 40%.

Vakil Search – Legal Tech Integration

Role: Lead Technical Consultant

Impact: Managed the integration of complex legal-tech workflows into a seamless user interface, ensuring high availability and system reliability.

At-a-Glance:

E-commerce & Retail: Scentbird, Maviinci Fashion, Nita Kitchenware, PixelGo eCommerce.

Business & Compliance: TaxDraw Business Filings, 1Quotation, Quantum Shield Obfuscator.

Health & Wellness: Arogyam Crossfit Gym, Emotcia, Quarantine Alert.

Specialized Web Apps: MFSI Chemicals, Ouragami, Winpay, SMFame.
